The best gift for the company's fifth birthday? Awarded Growth Champion 2023 by Focus.

The business magazine Focus Business and Statista, Germany's leading online platform for statistics, have analyzed the 12,000 fastest-growing companies in 21 industries out of 2 million and awarded the top 500 of them. And yes: we are among them!

Ranked 47th in Germany and even **4th in the 2023 Growth Champions in the „Chemicals and Pharmaceuticals“ industry**. We're very proud of this award! Right on time for our fifth company birthday. Focus editor-in-chief Robert Schneider wrote in the special issue 02/2022: „Writing about growth in times like these feels strange. Given the past Corona pandemic and Putin's war, energy crisis, inflation shock and disrupted supply chains.“ But our figures five years after the company was founded in 2017 prove that growth is possible even in times of crisis: more than 22 million euros in sales with 12 employees and 300 satisfied customers worldwide.

We say thank you – to our customers and supply partners and especially to the entire outstanding HOC team!
