

PRESS RELEASE

All good things come in ... threes! We've just been honored by Focus Business for the third time: After 2023 and 2024, we are now Growth Champion 2026, as well.

Every year, the business magazine Focus Business, in collaboration with Statista, Germany's leading statistics platform, recognizes the fastest-growing companies from around 2 million businesses across 21 industries.

The top 300 are officially honored. But you are probably already aware of this. After all, we've been at the top of the list twice: in 2023 and 2024. We are even more delighted that we are now among the Growth Champions 2026, as well. True to the motto:
All good things come in threes!

This time, we rank 183rd in the overall ranking for Germany. **Even more impressive: our industry-specific ranking in the „Chemicals and Pharmaceuticals“ category, where we came in 6th.** We are truly thrilled about this renewed recognition! After all, it is an excellent confirmation of our daily work and our unwavering commitment to our customers – in Germany, Europe, and on all other continents.

So, growth is possible even in difficult times and always depends on innovative strategies and solutions and a highly motivated, committed team. It may sound too simple or like empty words, but our figures speak for themselves. Since the company was founded by two people in 2017, we have achieved a turnover of more than €20 million this year with 15 employees – and over 300 satisfied customers around the globe.

So, for the third time: Thank you, thank you, thank you ... to all our loyal and new customers, our reliable supplying partners, and our phenomenal HOC crew!
